

ACADEMIC AND USEFUL INFORMATION SHEET

We would like to inform you about the requirements for the students who come to study at UPV as Erasmus Student.

Academic requirements

Attending to the academic requisites, exchange students enrolled at UPV have to attend at least 25 UPV credits as exchange students. 1 UPV credit equals to 0.8 ECTS.

On the other hand, UPV is a technical University which offers several courses taught in twelve Schools. Students accepted in our School can choose any subject from our degrees but they are also able to choose two subjects, equivalent to 12 UPV credits, from other Schools per semester.

Spanish level

Since the 2010/2011 academic year, students have been required to have a Spanish level equivalent to A1 at least, certified by an official institution.

Other useful Information

We would like to stress that students coming to UPV have to get the European Health Insurance, or equivalent, before coming here in order to avoid administrative problems.
